FITNESS FOR CONTACT WITH DRINKING WATER

The specified products were not yet assessed for compliance with the requirements for hygienic aspects set in the “Regeling materialen en chemicaliën drink- en warm tapwatervoorziening” (Materials and chemicals in the supply of drinking water and warm tap water regulation”, dated 01-07-2017; published in the Dutch Government Gazette).

APPLICATION AND USE

Shower heads and hand showers for sanitary tapware according to EN 1112 are intended for use in drinking water systems within the following limits: a dynamic pressure of 50 kPa to 500 kPa and a maximum temperature of 70°C. The recommended limits for correct operation are: a dynamic pressure of 100 kPa to 300 kPa and a maximum temperature of 42°C.

MARKING

The Kiwa®-mark products are marked with the wordmark “KIWA”.
Place of the mark: on the body.

Compulsory specifications:

- name or mark of the manufacturer “Riobel”, on the body;
- indication of the acoustic group, on the body;
- indication of the flow rate class, on the body.

Method of marking:

- non-erasable;
- visible after assembly.

RECOMMENDATIONS FOR CUSTOMERS

Check at the time of delivery whether:

- the supplier has delivered in accordance with the agreement;
- the mark and the marking method are correct;
- the products show no visible defects as a result of transport etc.

If you should reject a product on the basis of the above, please contact:

- Fortune Brands Water Innovations
and, if necessary,
- Kiwa Nederland B.V.

Consult the supplier's processing guidelines for the proper storage and transport methods.
